

# Agbeni Daniel Oluwafemi

## Web Developer

Contact: **0904 199 5875** | **danielagbeni12@gmail.com** | Mowe, Ogun State | <https://danielagbeni.netlify.app>

## Professional Summary

Dedicated and highly skilled Frontend Web Developer with a strong background in web development and media technology. Passionate about creating exceptional user experiences and contributing to innovative projects. Proven ability to lead and mentor, with extensive experience in delivering training focused on **JavaScript**, **React JS**, and **TypeScript**.

## Work Experience

### Computer Trainer and Coding Instructor | Barry Tech

September 2024 – January 2025

- **Led** the development and delivery of a comprehensive web development curriculum, consistently receiving positive student feedback.
- **Directed** all aspects of front-end web development training, focusing on React JS, resulting in significant improvement in student project outcomes.
- **Mentored** and guided over 50 students on best practices in coding and web design, fostering a collaborative and growth-oriented learning environment.
- **Initiated** new teaching methodologies that increased student engagement and knowledge retention.

### Coding Instructor | Swebs Coding Institute

March 2024 – August 2024

- **Led** instruction for JavaScript programming fundamentals and advanced concepts, achieving a 90% student success rate.
- **Designed** and implemented a revised front-end web development curriculum using the React JS framework, enhancing its practical application.
- **Developed** and managed hands-on coding projects, reinforcing learning objectives and providing students with real-world experience.

- **Guided** students through the entire project lifecycle, from initial concept to final deployment.

#### **Control Room Operator (SIWES) | Dux FM 94.7**

November 2022 - March 2023

- **Managed** and operated control room equipment for live radio broadcasts, ensuring seamless and high-quality transmission.
- **Oversaw** daily broadcast operations, proactively addressing technical challenges and maintaining system integrity.
- **Troubleshooted** and resolved technical issues in real-time, minimizing downtime and maintaining uninterrupted service.
- **Maintained** and optimized broadcast systems, implementing preventative measures to ensure peak performance.

#### **Church Media Technician (Voluntary service) | Christian Ministry of Reconciliation (CMR)**

2016 – Present

- **Led** the technical support for church media services, including audio-visual equipment setup, operation, and maintenance.
- **Managed** and expanded live streaming capabilities for church events and services, significantly increasing online viewership.
- **Collaborated** with the media team to enhance the quality of presentations and broadcasts, introducing new technologies and techniques.
- **Supervised** the training of new media team volunteers, ensuring consistent technical proficiency.
